TOLEXING WITH OVERLAP METHOD Here for a headshell

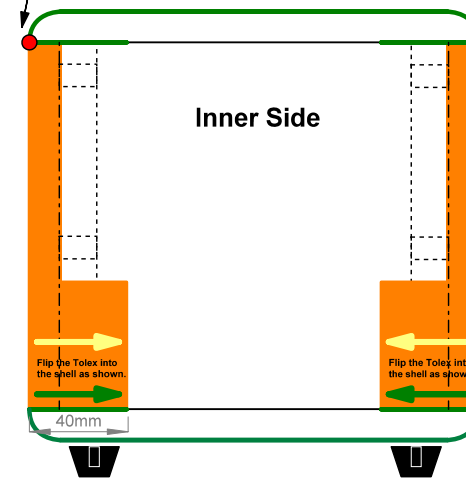

20mm

Glue the Tolex as shown in the picture.
Tolex glued to the sides is in orange color,
Top and bottom are in green.

Chassis Straps (if applicable)
will be placed here.

Take care that there is always only one
layer of tolex when you flip it along the inner edges.
Cut the Tolex accordingly. Only the bottom and top
Tolex will completely flip around the edges.

— Tolex for the sides

— Tolex for top and bottom
